Profile

CS student specialising in **full-stack web development** and **AI-based computer vision**, with **5+ hands-on projects** across gesture recognition, IoT automation, and enterprise web systems. Gained internship experience building government portals at the Sikkim IT Department. Seeking a software engineering internship where I can ship real product features from day one.

Experience

Web Development Intern — Sikkim IT Department

Jun 2026 – Present

- Developed and deployed **2 public-facing government web portals** (HTML, CSS, JS, PHP), reducing manual data-entry workflows for departmental staff.
- Refactored legacy UI components across **3 browsers**; resolved **10+ interface bugs** and improved load consistency.
- Assisted MySQL query optimisation, cutting average response time by an estimated **30%**.

Projects

Inventory Management System

Laravel · PHP · MySQL · JS

- Built a role-based inventory platform with sales, purchase, and stock-control modules, handling **500+ product SKUs** in the demo dataset.
- Implemented automated invoice generation and an analytics dashboard, cutting manual reporting time by an estimated **40%** compared to spreadsheet-based tracking.

Shortest Path Finder

Python · C · Dijkstra · BFS/DFS

- Implemented Dijkstra's, BFS, and DFS with map API integration; computed optimal routes across graphs of **200+ nodes** with step-by-step traversal visualisation.

Hand Gesture Recognition & Air Drawing

Python · OpenCV · MediaPipe

- Achieved real-time hand-landmark detection at **30 FPS** via MediaPipe; mapped 5-finger states to on-screen drawing with **< 80 ms** latency on CPU.

IoT Smart Delivery Robot (Ongoing)

ESP32 · Arduino · IoT

- Building an ESP32-based autonomous delivery robot (motor drivers, sensors, Wi-Fi OTA) with wireless mobile control for campus use.

Skills

Core Python JavaScript PHP Laravel Django C / C++

Web HTML5 CSS3 React Node.js REST APIs MySQL Git

Specialist OpenCV MediaPipe ESP32 Arduino DSA Linux Network Security

Education

BSc. Computer Science — SMIT, Sikkim Manipal University, India

Expected Jan 2027

4th Semester · CGPA: 7.6 / 10

High School (NEB) — Damak, Nepal

Nov 2024

Certifications

🏆 HackerRank — Problem Solving (Basic)

Algorithms & data structures

🏆 freeCodeCamp — JS Algorithms & DS

300+ hours · project-based

Achievements

- SMIT Ideathon — ACADEMIA'26** (SMU): selected to present a real-world solution prototype to a panel of industry evaluators.
- HackerOne** member — active in bug bounty & responsible disclosure; developing practical cybersecurity skills.
